PROFESSIONAL PROFILE

Food Safety and Quality Management specialist with 5+ years of experience implementing, auditing and improving management systems across chocolate and dairy manufacturing, IQF frozen foods, agricultural handling and export packing, hospitality and food service. Skilled in HACCP, ISO 22000, ISO 9001, BRCGS, GMP, GHP, prerequisite programs and Egyptian NFSA compliance. Experienced in factory qualification and NFSA White List approval, internal audits, CCP/OPRP monitoring, documentation, CAPA, supplier evaluation and workforce training. Certified Lead Auditor and Internal Auditor with experience delivering food safety and quality training.

CORE EXPERTISE

Food Safety & Quality Systems • HACCP / CCPs / OPRPs • BRCGS Food Safety • ISO 22000 & ISO 9001 • Internal & Supplier Audits • NFSA Regulatory Compliance • Factory Qualification • GMP / GHP / PRPs • Risk Assessment & Root Cause Analysis • CAPA • Documentation Control • Training & Consulting • Continuous Improvement

PROFESSIONAL EXPERIENCE

Quality Management Specialist | Saint Peter for Chocolate Products

January 2026 – Present

- Designed and implemented the systems and controls required for NFSA White List, Rainforest Alliance and Halal audits; coordinated audit readiness, hosted the audits and successfully passed them.
- Led end-to-end factory readiness for supplier collaboration with Edita and TBS, including supplier qualification, review of quality requirements, audit preparation and hosting, and technical communication with both companies.
- Maintain and continually improve the Food Safety Management System in line with HACCP, ISO 22000, GMP, GHP and applicable regulations.
- Plan and conduct internal audits; track non-conformities, corrective actions and preventive measures through closure.
- Built and implemented the documented food safety and quality management system from the ground up, including procedures, work instructions, forms and operational records; monitor CCPs and verification activities.
- Evaluate and approve suppliers, deliver employee training and lead root-cause analysis and improvement initiatives.

Freelance Quality Consultant & Trainer | Independent

October 2025 – Present

- Advise IQF frozen-food factories, chocolate manufacturers, hotels, restaurants and agricultural export packing stations on food safety and quality systems.
- Design and implement integrated systems aligned with ISO 22000, ISO 9001, HACCP and prerequisite programs.
- Develop policies, procedures, work instructions, risk assessments and operational records; conduct gap assessments and internal audits.
- Deliver tailored training and support clients with CAPA, certification readiness, regulatory compliance and food safety culture.

Food Safety Auditor | MQM

October 2026 – Present | Part-time

- Audit food safety and quality systems against HACCP, ISO 22000, GMP, GHP and relevant regulatory requirements.

- Review system documentation, operational controls, hygiene practices and CCP monitoring; report findings and follow up CAPA.

Food Safety Auditor | UKS

August 2026 – Present | Part-time

- Conduct compliance audits of food-related facilities, assessing documentation, prerequisite programs, hygiene controls and legal compliance.
- Communicate audit findings and verify corrective-action effectiveness to support continual improvement.

Head of Consulting and Training Department | OSHA Middle East

August 2026 – Present | Part-time

- Manage consulting and training engagements in food safety, quality and occupational safety; lead client projects, gap assessments and certification preparation.
- Design and deliver training in HACCP, ISO 22000, GMP, GHP and workplace safety; supervise consultants and trainers and maintain service quality.

Quality Assurance Manager | El Fkhama for Dairy Production

October 2022 – January 2026

- Led factory qualification and compliance activities, contributing to NFSA White List approval.
- Monitored CCPs and OPRPs and supervised implementation of HACCP, GMP, GHP and other prerequisite programs.
- Built the documented management-system framework from the ground up, developing procedures, work instructions, forms and records aligned with ISO 9001 and ISO 22000; conducted internal audits and drove CAPA follow-up.
- Coordinated readiness for external certification audits and regulatory inspections.

Quality Engineer & Accountant | The Device of Egypt's Future

February 2022 – October 2022

- Inspected fresh agricultural produce against quality specifications, including freshness, size, color, maturity and defects.
- Monitored sorting, grading, handling, packaging, storage and stock rotation; checked inbound and outbound shipments against customer and export requirements.
- Prepared inspection reports and documented non-conformities and corrective actions.

Quality Control Engineer – IQF Production | St. Mina Farm

September 2021 – February 2022

- Supervised IQF processing operations from raw-material receipt and preparation through freezing, ensuring production and quality requirements were met.
- Monitored processing temperatures and equipment, product attributes, GMP/GHP implementation, production records and process deviations.
- Coordinated with quality and maintenance teams to reduce production losses and downtime.

Quality Engineer | El Bawadi

January 2021 – September 2021

- Implemented food safety and quality procedures aligned with applicable ISO standards and monitored GMP/GHP practices.
- Maintained operational records and documentation, monitored production and handling, and supported corrective and preventive actions.
