PROFESSIONAL SUMMARY

Food Safety and Quality Management Specialist with over **FIVE years of professional experience** in implementing, managing, auditing, and improving Food Safety and Quality Management Systems across diverse sectors of the food industry, including dairy and chocolate manufacturing, IQF frozen food production, agricultural produce handling and export packing stations, hotels, and restaurants.

Strong expertise in HACCP, ISO 22000, ISO 9001, BRCGS Food Safety, GMP, GHP, PRPs, and regulatory compliance with the Egyptian National Food Safety Authority (NFSA). Proven experience in factory qualification and achieving NFSA White List approval, conducting internal audits, managing quality documentation, monitoring CCPs and OPRPs, and implementing corrective and preventive actions.

Certified Internal Auditor and Lead Auditor, as well as a Registered and Approved Tutor by Highfield International, with demonstrated expertise in developing and delivering professional food safety and quality training programs.

Experienced in providing food safety and quality management consultancy, designing integrated management systems, preparing organizations for certification and regulatory inspections, and driving continuous improvement initiatives.

Career Objective: Seeking to leverage technical, auditing, inspection, consulting, and training expertise within a leading international organization specializing in food safety, quality assurance, certification, or regulatory compliance.
